MANUAL

LMC LOGISTICS POOL. THE WEBSITE APPLICATION COLLECTED LOGISTICS PROVIDER INFORMATION SUPPORT CROSS BORDER BUSINESS

LMC LOGISTICS POOL

2023

Contents

Overview

LMC LOGISTICS POOL website was developed by the framework of a research project supported by Lancang - Mekong Cooperation Special Fund together with network partners; the Far Eastern University, and Office of the Ministry of Higher Education, Science, Research, and Innovation. The objective is to develop a digital database system for logistics service providers in Mekong-Lancang member countries to promote cross-border trade via the R3A route. The website collects the information of entrepreneurs and logistics service providers, acts as a medium of communication between entrepreneurs and logistics service providers, and provides announcement service for entrepreneurs to find logistics services provider.

System for Users

Users of the website can be classified into 3 types according to the type of use of the database system as follows.

- General users
- Entrepreneurs
- Logistics service providers

General Users

General users can search for information on logistics service providers, read news and announcements, or overview activities. However, they are not allowed to access the detailed information and must apply for membership as shown in the picture.

Operation menu (for general users)

The menu for general users can be shown as follows:

- Home – to return to the homepage

- Search – to find logistics service providers

- Urgent announcement – to view the entrepreneur's urgent announcement.

- To find a logistics service provider – General users are able to search for logistics service providers in this section. However, the system displays only general information. As for the detailed information of the logistics service provider, the users have to register as a member.

Sign up

- Sign up – General users can register as members of the database by selecting membership types; entrepreneurs or logistics service providers.
